

Geneva

COLLECTION

Lake Geneva, Wisconsin is a beautiful resort town that has drawn the rich and famous for decades, but at its core is a small community radiating warmth and stability. The **Geneva Collection**, named for this gem of a town, has high-end design featuring a contemporary look and feel that is made to last.

Thermofused Laminate cabinet benefits:

Easy to clean

Attractive,
clean look

High stain
resistance

Low
maintenance

Wide range of
color options

Affordable

Made in
the USA

Innovate your space

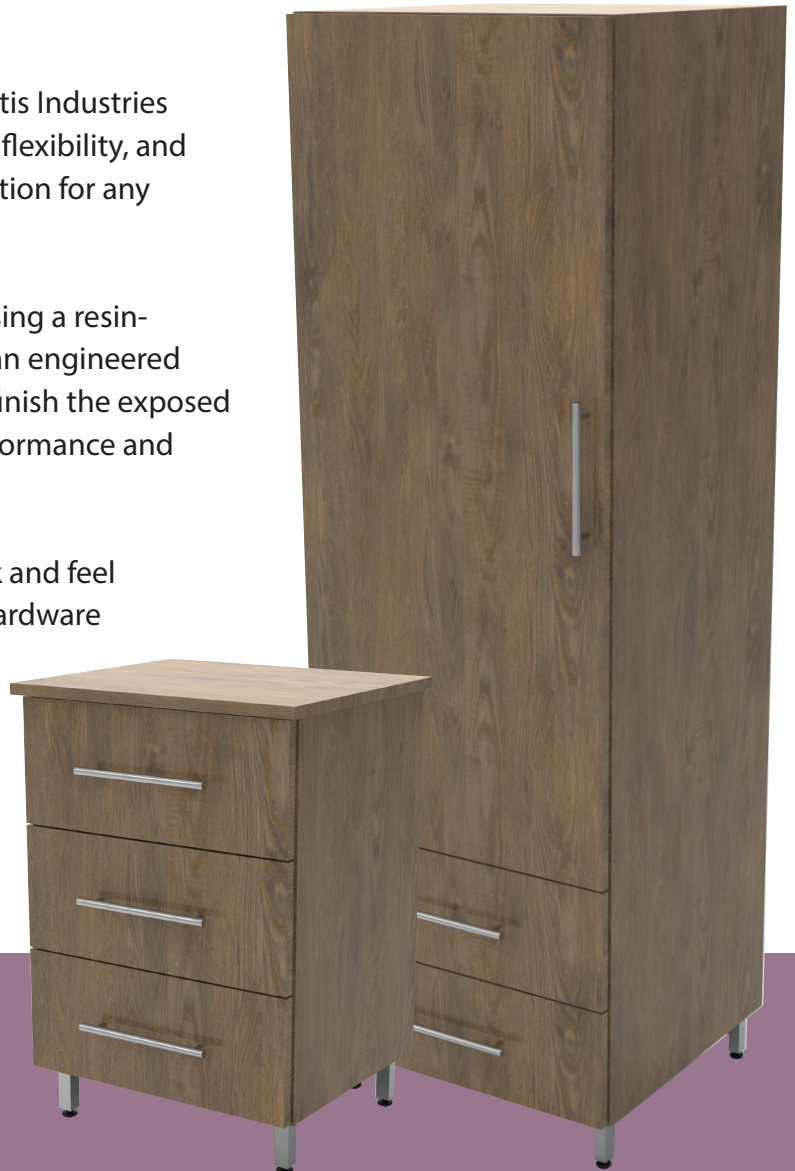

Innovative spaces require innovative products. Stratis Industries **Geneva Collection** is the ultimate in performance, flexibility, and cleanability, while also being a modern design solution for any industry.

Thermofused Laminate (TFL) materials are made using a resin-impregnated sheet of décor paper that is fused to an engineered composite substrate. PVC edge band is applied to finish the exposed edges. The result is a product with exceptional performance and beauty.

The **Geneva Collection** offers a contemporary look and feel at an affordable price. High quality materials and hardware are used in the construction. All products are meticulously assembled with our finest craftsmanship right here in the USA.
